

INTEGRATION CAMP 2018

From 17.09 to 21.09.2018 our project under the title "Vikings, Germans, Gauls and Celts on the Amber Rout" was executed. Youth from Szczecin and Rostock was involved. Our goal was to integrate with new classmates and friends from Germany.

With the first day the integration started. Each group had to prepare 2 games that were aimed at integrating us. The day ended with sport battles and a treasure hunt. Later on we were practicing our performances. Our task was to win the heart of Empress

Edypin for the exchange of the amber. We had many workshops: dance with Ewelina, theatre with Zosia and Piotr and art with Mrs. Sawicka. That was really fun. At night we had many attractions. We were singing songs and dancing next to the campfire. We played a game that our older friends prepared for us called "Night Patrol". We took part in the lecture on first aid. It was very interesting and we learned a lot. We also had a lot of fun at the beach. We flew kites and we tried to find all of the golden cones. Later on, the big decision was made. Celts won Empress Edypin heart and of course the most valuable amber. Everything ended with "Okociny".

In my opinion it was the best camp that I have ever attended. Everything was well prepared and I had a lot of fun.

That's allor is it?
Are you willing to try it yourself?
